ABOUT EMG A/S

European Merchandise Group A/S (EMG) is a well-established company founded in 2002. We design, produce and deliver best-in-class lifting bags and rope access products as well as custom textile solutions.

EMG delivers quality lifting bags for tools and rope access, as well as equipment bags special tailored solutions for unique content or situations. We primarily deliver to the wind- and offshore industry, but our products are relevant for many different industries, such as on-shore, construction, first aid and aviation.

Our lifting bags meet high safety standards and requirements and many of our bags are specially designed in collaboration with our customers, ensuring a consistent improvement of our products.

We design our best-in-class products in Esbjerg, Denmark while our manufacturing takes place in Vietnam. To ensure compliance, quality control of all products is conducted by Danish employees in Esbjerg.

The company came to market because of the need for better products in the lifting industry. To align with specific needs of our customers, the organization is split into two different branches; merchandise and tool bags.

The tool bag branch arose out of a need for bags to be used when transferring persons and cargo to and from offshore wind turbines. Nothing was approved and developed in 2002 for that particular market, so EMG started the development of a special bag that could be used for this purpose.

The initial model 3597 and 3585 was made and tested in 2003. After one year of testing, the first models were made and put into service at the Horns Rev Wind Farm no. 1. Subsequently, several major wind turbine manufacturers have been involved in the development process of all the tool bags that EMG offers today. Each tool bag has a special purpose.

Since then, EMG has become a household name in the wind-energy industry particularly, supplying to the biggest companies in the industry such as Siemens Gamesa, Vestas, Vattenfall, Ørsted and many more. EMG's distributor and customer base is spread across the whole world, covering 6 continents: Asia, Africa, North America, South America, Europe and Oceania.

The EMG tool bag department has its main focus on individual solutions and needs of the customer and if none of the bags in our product range fits your needs, we offer to tailor a bag or product to your personal preferences. Our creative department strives to make your ideas and concepts become reality.

In coherence with our growth and expansion domestically and world wide, we are now welcoming our customers, suppliers and partners to our brand-new facilities. The facilities are located in the industrial area of Esbjerg N, on Skagerrakvej 1, and includes a newly constructed warehouse and larger office building.

We accept no liability for omissions, incorrect spelling or printing errors.

REVISION: 2024-02

SERVICE

EMG lifting bags are used for lifting heavy content and therefore safety must be present all the time. You must be able to rely on the strength and sturdiness of our products.

Our lifting bags are delivered with a serial number and a certificate. Our lifting bags have a service life of 5 years and are subject to inspections every 6 or 12 months, as any other lifting equipment.

We have various partnered service facilities across Europe with

trained and educated personnel, who are certified and able to perform inspections of the bags. On our website you will find a list of all registered facilities.

At EMG we also offer the solution of educating your technicians, making them able to perform the inspections themselves.

Visit www.emg.dk to learn more or to find a map of all our certified service partners.

PULL TEST OF SLINGS

Single load test of the bag's webbing slings performed at a safety factor of 7:1 to comply with EN1492-1

QUALITY

EMG strives to produce and deliver products of the highest and safest quality. When it comes to our assortment of lifting bags, all of our models are meant to function in weather conditions ranging from -40° to 100° C.

We assure that all models have been made of sturdy materials and high-quality lifting ribbons that will easily withstand the marked WLL. Every material, ribbon, buckle and final product has been force tested and surpassed the relevant requirements set by EN 1492-1 as well as ISO 21898*.

EN 1492-1

The EN 1492-1 standard is found in the Council Directive of 17 May 2006 (2006/42/EF). The standard focus on flat woven webbing slings and is at EMG used as guidance for the production of the lifting bags with respect to load factor, marking, inspection interval and instruction manual.

In accordance with EN 1492-1 all of our lifting bags are produced and tested to withstand a vertical safety factor of 7:1 although our internal goals are to pass requirements of at least 10:1.

ISO 21898*

The ISO 21898 standard focus on flexible intermediate bulk containers and is at EMG used as guidance for the production of lifting bags with respect to load factor, pressure testing and marking.

In accordance with ISO 21898 our lifting bags are produced and tested to withstand a cycle of 70 load tests of safety factor 4:1 / 6:1. This cyclic top lift test will be performed using plastic granulate or actual content. Furthermore, a compression/stacking test will be performed for 6 hours.

ASME B30.9 & EN 10204

ASME B30.9 includes provisions that apply to the fabrication, attachment, use, inspection, testing, and maintenance of slings used for load handling purposes. This standard is only relevant for our selection of products produced for customers located in USA. The USA lifting bags are not currently present in this catalogue but are all modified versions of our standard product range.

EN 10204 is a standard used to certify and ensure the quality and strength of the steel elements. This standard is only relevant on our small selection of lifting bags mounted with steel fittings.

With these standards we ensure that our slings, fabric, stitching, buckles, zippers and final products have been tested to withstand the WLL requirements of each specific bag.

With every unit of a final product comes a certificate of conformity with a unique serial number, an instruction manual and a label placed on the bag showing the relevant data.

CYCLIC TOP LIFT TEST

Load test of 70 cycles performed at a safety factor of either 4:1 or 6:1 to comply with ISO 21898*

COMPRESSION TEST

6 hours compression test performed at a safety factor of 4:1 to comply with ISO 21898*

* NOT ALL PRODUCTS ARE TESTED ACCORDING TO ISO 21898. ISO 21898 IS NOT APPLICABLE FOR OPEN PRODUCTS SUCH AS HARNESSSES, HOLSTER BAGS AND SIMILAR.

MERCHANDISE & COMPANY BRANDING

EMG offers a large range of products perfectly suited for company branding, sports organizations and gifting. We have many predefined solutions but always offers to create new products from scratch if needed.

The solutions can be produced in various color and material combinations at your request. Company logo or other text and illustration can be displayed on the products through either embroidery or print.

Some of the products we offer:

Sport bags, back packs, toilet bags, caps, scarves, wallets, key hangers, gift bags, car seat cover and much more!

Contact our office to learn more.

CUSTOM COLORS & LOGO PRINT

If our normal color selection does not match your company colors or you are in need of alternative color options to differentiate between projects, we are always ready to try and offer you a desired solution.

Our products can be produced in various color and material combinations, however, be aware that our fabric storage will vary.

Large order quantities are needed for this solution!

Company logo or other text and illustrations can be displayed on the products through either embroidery or print. Both options can be done in single or multi-color solutions.

*Delivery time may vary depending on color and material choices

PRODUCTS TAILORED TO YOUR NEEDS

We strive to make the best possible products for your needs. If none of the bags in our current product range fits your purpose, we offer to tailor a bag to your personal preferences, to make your ideas and concepts become reality.

WLL to suit your needs

Lifting products are our main focus at EMG and we have made products ranging all the way up to 1000 kg WLL.

Custom shapes and sizes

Whether it's a small mobile holster or a large blade bag for turbine wings, we are prepared to make it happen.

High quality materials

We aim to use the best materials for your specific needs. Thin, thick, strong, sturdy, reflective, thermos, waterproof...

Solutions to fit your purpose

We have great experience with making a variety of special products from very specific and unusual purposes.

LIFTING BAGS

Original lifting bags for hoisting content of various weight and sizes.

Pages 7-34

2651 Mini tool bag

Color options:

This mini lifting bag is one of the front runners in the industry and is mainly used for hoisting minor tools in daily work situations. Due to its discrete size the 2651 can also be secured to the technicians belts and used when working in heights.

- **Dimensions (open):** 16 x 40 cm (Ø x H)
- **Dimensions (closed):** 16 x 30 cm (Ø x H)
- **Lifting height:** 35 cm
- **Material (main):** D1800*900 PVC flat-coated polyester
- This handy bag has one lifting strap for hoisting and handling.
- It has securing holes to secure tools to the bag on the front and back.
- Comes with a hard plastic bottom plate inside the bag to offer weight distribution.
- Comes with an upright plastic insert for easier visibility inside and making the bag stable and upright.
- The upright plastic has small pockets for minor items placed all around the bag.
- To close the bag, fold the top part 3 times and shut the plastic buckle.
- The lifting strap is made from high quality polyester webbing.

4425 Tall mini tool bag

Color options:

This tool bag is a slightly taller version of 2651 and offers the same functions. The bag is perfect for minor tools and spare parts and is of great use for people working in heights.

- **Dimensions (open):** 16 x 65 cm (Ø x H)
- **Dimensions (closed):** 16 x 57 cm (Ø x H)
- **Lifting height:** 67 cm
- **Material (main):** D1800*900 PVC flat-coated polyester
- This bag has one lifting strap for hoisting and handling.
- It has securing holes to secure tools to the bag on the front and back.
- To close this bag, fold the top part and shut the plastic buckle.
- The lifting straps is made from high quality polyester webbing.
- A hard plate is placed inside the bottom of the bag to offer weight distribution.
- Comes with an upright plastic insert for easier visibility inside and making the bag stable and upright.
- The upright plastic has small pockets for minor tools or similar.

16135 Extra tall tool bag - Slim cylinder

Color options:

16135 is of the same family as 2651 and 4425. This version however is extra tall and is especially suited for oblong tools and objects of minor weight.

- **Dimensions (open):** 16 x 130 cm (Ø x H)
- **Dimensions (closed):** 16 x 120 cm (Ø x H)
- **Lifting height:** 122 cm
- **Material (main):** D1800*900 PVC flat-coated polyester
- **Spare parts:** 16135-100
- It has securing holes to secure tools to the bag on the front and back.
- To close this bag, fold the top part and shut the plastic buckle.
- This version has one hoisting strap for lifting and handling.
- A plastic plate is placed in the bottom to offer optimal weight distribution and protection against sharp objects.
- The lifting strap is made from high quality polyester webbing.

4760 Bag for fluorescent/LED light - 60 cm

Color options:

Special designed lifting bag for light bulbs. The bag can be used for hoisting or attaching to the belt when climbing and fits 6 pieces of 60 cm fluorescent light / LED bulbs.

- **Dimensions (open):** 14 x 10 x 64 cm (L x W x H)
- **Dimensions (closed):** 14 x 10 x 64 cm (L x W x H)
- **Lifting height:** 76 cm
- **Material (main):** D1800*900 PVC flat-coated material
- Has one handle on the front for easy handling.
- Uses two lifting straps for hoisting or attaching to belt when climbing in heights.
- A foam block with pre-cut holes is placed inside the bag to offer protection for the light bulbs. The holes are \varnothing 28 mm.
- Foam is placed in the top and bottom of the bag to fasten and protect the light bulbs.
- The lifting straps are made from high quality polyester webbing.

5399 Bag for fluorescent/LED light - 120 cm

Color options:

Special designed lifting bag for light bulbs. The bag can be used for hoisting or attaching to the belt when climbing and fits 6 pieces of 120 cm fluorescent light / LED bulbs.

- **Dimensions (open):** 14 x 10 x 128 cm (L x W x H)
- **Dimensions (closed):** 14 x 10 x 128 cm (L x W x H)
- **Lifting height:** 142 cm
- **Material (main):** D1800*900 PVC flat-coated material
- Has one handle on the front for easy handling.
- Uses two lifting straps for hoisting or attaching to belt when climbing in heights.
- A foam block with pre-cut holes is placed inside the bag to offer protection for the light bulbs. The holes are \varnothing 28 mm.
- Foam is placed in the top and bottom of the bag to fasten and protect the light bulbs.
- The lifting straps are made from high quality polyester webbing.

2601 Small tote bag - Long strap

| | | | | |
|------|-------|------|----------|----------------|
| | | | | Color options: |
| 19 L | 50 KG | 1 KG | 20 UNITS | |

Small lifting bag used for hoisting tools and small spare parts. Similar to 2534 in size but with a longer set of lifting straps.

- **Dimensions (open):** 45 x 10 x 43 cm (L x W x H)
- **Dimensions (closed):** 45 x 10 x 43 cm (L x W x H)
- **Lifting height:** 100 cm
- **Material (main):** D1800*900 PVC flat-coated material

- **NOTE: An orange tarpaulin 0,5 mm version is now available.**
- Reflection material is placed on the front and back for higher visibility.
- Model 2601 has two long lifting straps.
- A small polyester strap is placed in the corner of the velcro opening for easier access even when wearing heavy gloves.
- This bag has a dual velcro closing mechanism.
- The bottom of the bag is made from a heavy rubber coating (dotted PVC) to extend the lifespan of the bag.
- The lifting straps are made from high quality polyester webbing.

2534 Small tote bag - Dual lifting option

| | | | | |
|------|-------|------|----------|----------------|
| | | | | Color options: |
| 20 L | 50 KG | 1 KG | 20 UNITS | |

Small lifting bag used for hoisting tools and small spare parts. An extra set of lifting straps gives you more solutions when dealing with different available lifting heights.

- **Dimensions (open):** 45 x 10 x 45 cm (L x W x H)
- **Dimensions (closed):** 45 x 10 x 45 cm (L x W x H)
- **Lifting height:** 55 / 80 cm
- **Material (main):** D1800*900 PVC flat-coated material

- This bag has two sets of lifting straps. A short and a long set.
- Reflection material is mounted on the front and back for higher visibility.
- This bag has a dual velcro closing mechanism.
- A small polyester strap is placed in the corner of the velcro opening for easier access even when wearing heavy gloves.

- The shoulder straps are padded to enhance comfort and adjustable to fit your preferences.
- The inside padding of the bag is red in both versions.
- The lifting strap is made from high quality polyester webbing.
- The bottom of this bag is made from dotted PVC which is water repellent.

4626 Round lifting bag for rope access

Color options:

4626 is a great tool bag for technicians and their daily routines. This round lifting bag was mainly developed for the purpose of working in heights and is ideal for rope access.

- **Dimensions (open):** 34,5 x 43 cm (Ø x H)
- **Dimensions (closed):** 34,5 x 43 cm (Ø x H)
- **Lifting height:** 60 cm
- **Material (main):** D1800*900 PVC flat-coated material
- **Spare parts:** 6166, 6180, 1122, 6234, 4626-100, 6300

- The hard bottom is made of hard plastic to keep the bag in shape and prolong the lifespan of the bag.
- The bottom is replaceable and can be easily replaced if needed.
- A bottom plate is sewn into the bottom of the bag to offer weight distribution.
- The bag comes with a white plastic insert making the bag upright and stable.
- 4626 comes with two upright plastic dividers which can divide the inside of the bag into 4 compartments.
- This model has six pockets placed on the outside of the bag.
- Lifting straps can be used for belt fastening.
- The top of the bag is closed by a zipper, the pockets around the outside are closed by velcro.
- The pockets on the outside have securing holes for attaching and securing tools and other content inside.
- Comes with a comfortable detachable shoulder strap. This shoulder strap is adjustable to fit your preferences.
- A transparent pocket is placed on the inner side of the lid for documentation or a photo card (model no. 1122).
- Two straps for pens are placed on the inner side of the lid.

4864 Waterproof drum bag - Ø48

Color options:

4864 is a new and great bag originally created for a large helicopter operation. The bag has great room, smart functions and is even waterproof.

- **Dimensions (open):** 48 x 64 cm (Ø x H)
 - **Dimensions (closed):** 48 x 64 cm (Ø x H)
 - **Lifting height:** 75 cm / 105 cm
 - **Material (main):** Double layer 0.5 mm tarpaulin
 - **Spare parts:** 6083
- The tarpaulin fabric is double layered making the bag water proof.
 - Has an inflatable lid so that rain water can drain off easily.
 - Handles on the sides of the bag for easy handling.
 - The top is closed by zippers.
 - The zipper is protected by tarpaulin fabric through velcro attachment.
 - Comes with two sets of 50 mm polyester lifting slings. Each set consist of two lifting eyes.
 - The short set of lifting slings are made for helicopter hoist with an Elebia hook and can therefore only be used with carabiners and a magnetic ring connected between the two lifting eyes.
 - The bag has small loops on the side of the bag to secure the set of slings not in use.
 - Comes with an upright plastic insert.
 - The bottom is replaceable and can easily be replaced if needed.
 - The hard bottom is made out of Polypropylene Log Plastic to keep the bag in shape and prolong the lifetime of the bag.

5867 Tall drum bag for rescue equipment

75 L

50 KG

5,5 KG

REPELLENT

5 UNITS

Color options:

A clever and functional bag with easy access and handling. 5867 is great for many purposes such as rope access, but was initially developed for rescue equipment.

- **Dimensions (open):** 35 x 80 cm (Ø x H)
 - **Dimensions (closed):** 35 x 80 cm (Ø x H)
 - **Lifting height:** 110 cm
 - **Material (main):** 0.50 mm tarpaulin
 - **Spare parts:** 1920, 6094, 6180, 6166, 30026, 2929, AHL-2440/2T
- A small see-through pocket for A5-sized paper is placed on the top of the bag/lid.
 - This bag comes with an insert of hard plastic for making the bag stable, upright and give more light inside the bag.
 - The bag uses 2 lifting slings for hoisting. These are made from strong, high quality 50mm polyester webbing.
 - The top of the bag is closed by a zipper, which is secured to the bag by a small carabiner on the front.
 - The bag comes with a comfortable attachable/detachable shoulder strap. This shoulderstrap is adjustable to fit your preferences.
 - The bag is shipped with a raincover to be used when placed on a ship or stored outside for longer periods.
 - The bottom is replaceable and can easily be replaced if needed.
 - The hard bottom is made out of Polypropylene Log Plastic to keep the bag in shape and prolong the lifetime of the bag.

- This bag comes with an insert of hard plastic for making the bag stable, upright and give more light inside the bag.
- The hard bottom is made out of Polypropylene Log Plastic to keep the bag in shape and prolong the lifetime of the bag.
- The strong lifting straps are made from high quality polyester webbing.
- The bottom is replaceable and can easily be replaced if needed.

3579 Cylinder-shaped tool bag - Small

| | | | | |
|--|--|---|--|---|
|  52 L |  80 KG |  1,6 KG |  5 UNITS | Color options:   |
|--|--|---|--|---|

3579 was the first model ever launched and together with its sister bags, 1225 and 4897, they continue to be some of our most sought after units. The bags are straight forward and easy to handle and are perfectly suited for general tools and equipment.

- **Dimensions (open):** 35 x 69 cm (Ø x H)
 - **Dimensions (closed):** 35 x 55 cm (Ø x H)
 - **Lifting height:** 65 cm
 - **Material (main):** D1800*900 PVC flat-coated material
 - **Spare parts:** 1920, 6094, 6117, 6166, 6180
- The lifting straps are made from high quality polyester webbing.
 - The model has handles mounted on the side to ease handling.
 - The hard bottom is made of Polypropylene Log Plastic to keep the bag in shape and extend the lifespan of the bag.
 - The bottom is replaceable and can easily be replaced if needed.
 - This model uses two lifting hooks when hoisting.

1225 Round lifting bag

| | | | | |
|---|--|---|---|---|
|  80 L |  80 KG |  2 KG |  5 UNITS | Color options:   |
|---|--|---|---|---|

1225 is a slightly taller version of the classic 3579. It has been around for many years but continues to be one of our most coveted units. The bag is straight forward and easy to handle and is perfectly suited for general tools and equipment.

- **Dimensions (open):** 35 x 94 cm (Ø x H)
 - **Dimensions (closed):** 35 x 80 cm (Ø x H)
 - **Lifting height:** 88 cm
 - **Material (main):** D1800*900 PVC flat-coated material
 - **Spare parts:** 1920, 6094, 6117
- **NOTE: This model has changed name from 3597**
 - The lifting straps are made from high quality polyester webbing.
 - This model has handles mounted on the sides to ease handling.
 - The hard bottom is made of Polypropylene Log Plastic to keep the bag in shape and extend the lifespan of the bag.
 - The bottom is replaceable and can easily be replaced if necessary.
 - This model uses two lifting hooks when hoisting.

4897 Large cylinder tool bag

Color options:

4897 takes its shape and design from the classic 3579 but offers a wider and taller volume. It has been around for many years but continues to be one of our most coveted units. The bag is straight forward and easy to handle and is perfectly suited for general tools and equipment.

- **Dimensions (open):** 48 x 98 cm (Ø x H)
 - **Dimensions (closed):** 48 x 83 cm (Ø x H)
 - **Lifting height:** 102 cm
 - **Material (main):** D1800*900 PVC flat-coated material
 - **Spare parts:** 1919, 6083, 6084
-
- This model uses two lifting hooks when hoisting.
 - The lifting straps are made from high quality polyester webbing.
 - The bag has handles mounted on the side to ease handling. Three handles in total around the bag.
 - The hard bottom is made of hard Polypropylene Log Plastic to keep the bag in shape and prolong the life of the bag and can easily be replaced, if needed. The cover is attached by velcro.
 - The hard bottom cover is secured by velcro straps to ensure it wont fall off.
 - This bag can be mounted with an additional insert of hard plastic for making the bag stable, upright and give more light inside the bag.

3209 Tall bottle bag - Dual lifting option

This tall cylinder-shaped lifting bag can be folded to half size and be used and hoisted as a short bag. The bag is developed for gas bottles but can be used to hoist a variety of oblong objects.

- **Dimensions (open):** 28 x 150 cm (Ø x H)
- **Dimensions (closed):** 28 x 130 cm (Ø x H)
- **Lifting height:** 140 cm
- **Material (main):** D1800*900 PVC flat-coated polyester
- The bottom of the bag is made from a heavy rubber coating to prolong the lifespan of the bag.
- The bag has handles mounted on the sides to ease handling.
- The strong lifting straps are made from high quality polyester webbing.
- Fold the top of the bag to half height for two new lifting straps to appear. This option is ideal for hoisting smaller content like short gas bottles.

2604 Tall filter bag

This tall cylinder-shaped lifting bag comes with a soft bottom cover and the option to implement a hard cover if needed. The purpose of the bag has in many cases been hoisting of filters, gas bottles and pitch cylinders.

- **Dimensions (open):** 35 x 160 cm (Ø x H)
- **Dimensions (closed):** 35 x 144 cm (Ø x H)
- **Lifting height:** 150 cm
- **Material (main):** D1800*900 PVC flat-coated polyester
- **Spare parts:** 1920, 6094, 6117, 6165
- The lifting straps are made from high quality polyester webbing.
- The bag has handles mounted on the side to ease handling.
- This bag can be mounted with an additional insert of hard plastic for making the bag stable, upright and give more light inside the bag.
- This bag is mounted with a soft bottom cover.
- The bottom is replaceable and can easily be replaced, if needed.

35200 Tall cylinder tool bag

The purpose of this tall cylinder-shaped lifting bag has in many cases been hoisting of filters, gas bottles and pitch cylinders.

- **Dimensions (open):** 35 x 200 cm (Ø x H)
- **Dimensions (closed):** 35 x 170 cm (Ø x H)
- **Lifting height:** 175 cm
- **Material (main):** D1800*900 PVC flat-coated polyester
- **Spare parts:** 1920, 6094, 6117, 6165
- The lifting straps are made from high quality polyester webbing.
- The bag has handles mounted on the side to ease handling. Three handles in total around the bag.
- Comes with an upright plastic insert for easier visibility inside and making the bag stable and upright. The upright is 100 cm tall.
- The hard bottom is made of hard Polypropylene Log Plastic to keep the bag in shape and prolong the life of the bag and can easily be replaced, if needed. The cover is attached by velcro.

5221 Lifting bag with trolley function

Color options:

A smart lifting bag with implemented wheels and telescopic trolley handle offering the possibility to transport and manoeuvre the bag easily on the ground. The bag is ideal for travel.

- **Dimensions (open):** 46 x 33 x 115 cm (L x W x H)
- **Dimensions (closed):** 46 x 33 x 80 cm (L x W x H)
- **Lifting height:** 115 cm
- **Material (main):** D1800*900 PVC flat-coated polyester
- **Spare parts:** 6245
- Has a hidable telescopic handle to ease handling and use.
- The straps and handles are made from high quality polyester webbing.
- 5221 now has four wheels on the bottom of the bag giving it a trolley function.
- The wheels are made of heavy duty plastic.
- The bag has one handle mounted on each side and one on the front.
- A hard plate is placed inside the bottom and the back of the trolley.
- Hard plastic plates are placed inside the walls all the way around the bag making it stable and upright.
- The corners and bottom of the bag have plastic protection covers.
- Closing the bag tight for travel or other transportation can be done with a carabiner.
- The inside of the bag contains one large main compartment.
- A large velcro patch is placed on the front for changable logo or project specific print.

4139 Horizontal gas bottle bag

Color options:

4139 is an oblong tube bag lifted horizontally. This bag is often used for hoisting and transporting gas bottles and pitch cylinders.

- **Dimensions (open):** 26 x 164 cm (Ø x L)
- **Dimensions (closed):** 26 x 164 cm (Ø x L)
- **Lifting height:** 65 cm
- **Material (main):** D1800*900 PVC flat-coated material

- This bag is hoisted horizontally.
- This bag is closed by zipper. The zipper is protected underneath a velcro enclosure.
- A comfortable handle is mounted in each end of the bag to ease handling.
- The bottom of the bag is made from a heavy rubber coating to prolong the lifespan of the bag.

4435 Square bag for heavy lifting - Small

This small quadratic tool bag is made for compact but heavy lifts. The strong lifting straps and dual layer fabric gives the user the opportunity to hoist content of up to 500 kgs.

- **Dimensions (open):** 35 x 35 x 75 cm (L x W x H)
- **Dimensions (closed):** 35 x 35 x 75 cm (L x W x H)
- **Lifting height:** 90 cm
- **Material (main):** D1800*900 PVC flat-coated polyester
- **Spare parts:** 6170

- A dual velcro closing device makes the bag easy and secure to close.
- 4435 has handles on the sides for easy handling.
- A hard plastic plate is placed inside the bag to offer weight distribution.
- A small polyester strap is placed in the corner of the velcro opening for easier access even when wearing heavy gloves.
- The solid bottom is made from hard Polypropylene Log Plastic to keep the bag in shape and prolong the lifetime of the bag.
- The bottom is replaceable and can easily be replaced if needed.
- The strong lifting slings are made from high quality polyester webbing.

3225 Square tool bag - Small

This small square tool bag is made from strong tarpaulin material. The bag is water repellent and is a great solution for smaller content of lesser weight.

- **Dimensions (open):** 57 x 27 x 67 cm (L x W x H)
- **Dimensions (closed):** 57 x 27 x 67 cm (L x W x H)
- **Lifting height:** 84 cm
- **Material (main):** 0,5 mm Tarpaulin
- **Spare parts:** 6131
- This edition has two pockets on the inside walls. The pockets are closed by velcro.
- It is made of extra heavy dual layer tarpaulin material, making the bag water repellent.
- A small polyester strap is placed in the corner of the velcro opening for easier access even when wearing heavy gloves.
- The hard bottom is made of Polypropylene Log Plastic to keep the bag in shape and prolong the life of the bag. The bottom cover can easily be replaced if needed.
- A hard plastic plate is placed inside the bag to offer weight distribution.
- The bag has handles mounted on the side to ease handling.
- A dual velcro closing device makes the bag easy and secure to close.

4453 Square thermo lifting bag

4453 is one of the more unique EMG tool bags as it functions as a classic lifting bag but at the same time offers the thermo bag option making it ideal for transporting hot or cold content to desolated locations such as ships and wind turbines.

- **Dimensions (open):** 60 x 35 x 76 cm (L x W x H)
- **Dimensions (closed):** 60 x 35 x 76 cm (L x W x H)
- **Lifting height:** 85 cm
- **Material (main):** D1800*900 PVC flat-coated polyester
- **Spare parts:** 6095

- It has a double velcro closing mechanism for securing optimal containment.
- The bag has a see-through A4-sized pocket on the front of the bag.
- Handles are mounted on the sides to ease handling.
- A small polyester strap is placed in the corner of the velcro opening for easier access even when wearing heavy gloves.
- A hard plastic plate is placed inside the bag to offer weight distribution.
- The hard bottom is made of hard Polypropylene Log Plastic to keep the bag in shape and prolong the lifetime of the bag.
- The bottom is replaceable and can easily be replaced, if needed.

2619 Medium square lifting bag

A classic square tool bag with a wide opening for easy content filling and handling. The 2619 shares the same size and shape with a handfull of other products but is mainly aimed at smaller content of lesser weight.

- **Dimensions (open):** 60 x 35 x 76 cm (L x W x H)
- **Dimensions (closed):** 60 x 35 x 76 cm (L x W x H)
- **Lifting height:** 85 cm
- **Material (main):** D1800*900 PVC flat-coated polyester
- **Spare parts:** 6095

- A dual velcro closing device makes the bag easy and secure to close.
- This bag has flat handles on the sides for easy handling.
- A small polyester strap is placed in the corner of the velcro opening for easier access even when wearing heavy gloves.
- The solid bottom is made of hard Polypropylene Log Plastic to keep the bag in shape and prolong the lifespan of the bag.
- The bottom is replaceable and can easily be replaced if needed.
- A hard plastic plate is placed inside the bag to offer weight distribution.

3610 Medium square lifting bag

3610 is a square shaped tool bag that offers all of the best EMG qualities. This model is constructed in tarpaulin material making it water repellent and is shipped with a hard bottom cover making it tough and durable.

- **Dimensions (open):** 60 x 35 x 76 cm (L x W x H)
- **Dimensions (closed):** 60 x 35 x 76 cm (L x W x H)
- **Lifting height:** 85 cm
- **Material (main):** 0,5 mm Tarpaulin
- **Spare parts:** 6095

- A dual velcro closing device makes the bag easy and secure to close.
- A solid plastic plate is placed inside the bottom of the bag for stability and optimal weight distribution.
- A small polyester strap is placed in the corner of the velcro opening for easier access even when wearing heavy gloves.
- The bag has tube handles mounted on the sides to ease handling.
- Hard bottom plastic cover to keep the bag in shape and extend the lifespan.
- The cover is replaceable and can easily be replaced if needed.

3982 Medium square lifting bag

Color options:

3982 is a square shaped tool bag made for heavy content lifting. The bag is suited for heavy wear and is mounted with a hard bottom cover making it tough and durable for most sites and purposes.

- **Dimensions (open):** 60 x 35 x 76 cm (L x W x H)
- **Dimensions (closed):** 60 x 35 x 76 cm (L x W x H)
- **Lifting height:** 85 cm
- **Material (main):** D1800*900 PVC flat-coated material (dual layer)
- **Spare parts:** 6095
- A dual velcro closing mechanism makes it easy to access the bag as well as securing the bag from opening when closed correctly.
- A small polyester strap is placed in the corner of the velcro opening for easier access even when wearing heavy gloves.
- A solid plastic plate is placed inside the bottom of the bag for stability and optimal weight distribution.
- 3982 is enforced with dual layer fabric and round-going safety ribbons.
- The bag has tube handles mounted on the sides to ease handling. The tubes offers grip and protection.
- The strong lifting slings are made from high quality polyester webbing.
- Hard bottom Polypropylene Log Plastic cover to protect the bag and extend the lifespan.
- The cover is replaceable and can easily be replaced if needed.

2606 Lifting bag for Jumbo® tool box

Color options:

As it is with most of the bags in our assortment, this special holster bag has been made with heavy involvement from the wind turbine industry. The bag is specifically made to fit and hoist the Jumbo tool box, VK180.

- **Dimensions (open):** 86 x 50 x 23 cm (L x W x H)
- **Dimensions (closed):** 86 x 50 x 23 cm (L x W x H)
- **Lifting height:** 155 cm
- **Material (main):** D1800*900 PVC flat-coated material
- **Spare parts:** VK180

- **NOTE:** The Jumbo® tool box must be bought separately.
- This bag is made for hoisting the VK180 tool box from the manufacturer Jumbo®
- The bag has two strong lifting straps made from high quality polyester webbing.
- The strong lifting slings are made from high quality polyester webbing.
- Diamond feet are placed underneath the bag to offer protection when placed on the ground.

4321 Big square lifting bag - Dual lifting option

4321 is a big square lifting bag that offers everything needed from a tool bag in its category. The bag gives you water repellent material, hard cover bottom and two sets of lifting straps as well as the option of hoisting content up to 400 kg.

- **Dimensions (open):** 78 x 48 x 73 cm (L x W x H)
 - **Dimensions (closed):** 78 x 48 x 73 cm (L x W x H)
 - **Lifting height:** 61 / 83 cm
 - **Material (main):** 0,75 mm Heavy tarpaulin
 - **Spare parts:** 6164, 6248, 6275, 6240
-
- It has a dual velcro closing method.
 - This bag has tube handles on the sides for easy handling.
 - 4321 bag is made of high quality tarpaulin material making it water repellent.
 - The strong lifting straps are made from high quality polyester webbing.
 - The hard bottom cover is made of hard Polypropylene Log Plastic to keep the bag in shape and extend the lifespan of the bag.
 - Securing straps from the bag are guided through the sides of the cover to ensure it from falling down in case the velcro doesn't hold.
 - A small polyester strap is placed in the corner of the velcro opening for easier access even when wearing heavy gloves.
 - Inside the bottom is placed a 20 mm PVC plate to offer safety and weight distribution.
 - The bag offers a second lifting height if the bag is not too full. This reduced lifting height is great for tighter places like older turbines.
 - The cover is replaceable and can easily be replaced, if needed.

5622 Square lifting bag w/ steel fittings

| | | | | | |
|--|--|--|--|--|--------------------|
| | | | | | Color options: |
|--|--|--|--|--|--------------------|

Square tool bag with plastic bucket insert for keeping the bag in shape and protecting against pointy objects. 5622 uses steel fittings as lifting hooks.

- **Dimensions (open):** 78 x 48 x 65 cm (L x W x H)
 - **Dimensions (closed):** 78 x 48 x 65 cm (L x W x H)
 - **Lifting height:** 77 cm
 - **Material (main):** 0,75 mm Heavy tarpaulin
 - **Spare parts:** 6164, 6275, 6240
- As part of the bag comes a foldable upright plastic box. The bucket is folded and assembled by velcro and can be folded out to be one flat piece of plastic.
 - This model is equipped with a dual velcro closing method.
 - 5622 is made of high quality tarpaulin material making it water repellent.
 - This bag has tube handles on all four sides for easy handling.
 - A transparent plastic pocket is placed on the front for A5-sized documentation.
 - A small polyester strap is placed in the corner of the velcro opening for easier access even when wearing heavy gloves.
 - Inside the bottom is placed a 20 mm PVC plate to offer safety and weight distribution.
 - The bottom cover is made of Polypropylene Log Plastic to keep the bag in shape and extend the lifespan of the bag. It can easily be replaced if needed.

5327 Square lifting bag w/ bucket insert

Square tool bag with a hard plastic bucket insert for keeping the bag in shape and protecting against pointy objects. 5327 is made for heavy lift.

- **Dimensions (open):** 78 x 48 x 77 cm (L x W x H)
 - **Dimensions (closed):** 78 x 48 x 77 cm (L x W x H)
 - **Lifting height:** 90 cm
 - **Material (main):** 0,75 mm Heavy tarpaulin
 - **Spare parts:** 6164, 6275, 6240
- As part of the bag comes a foldable upright plastic bucket. The bucket is folded and assembled by velcro and can be folded out to be one flat piece of plastic.
 - This model is equipped with a dual velcro closing method.
 - 5327 bag is made of high quality tarpaulin material making it water repellent.
 - The strong lifting slings are made from high quality polyester webbing.
 - This bag has tube handles on the front and back for easy handling.
 - A small polyester strap is placed in the corner of the velcro opening for easier access even when wearing heavy gloves.
 - The hard bottom is made of Polypropylene Log Plastic to keep the bag in shape and extend the lifespan of the product. The bottom is replaceable if needed.

4487 Big square lifting bag

4487 is a square tool bag made from high quality D1800*900 flat-coated material that offers great volume and WLL. Along with the bag you will find an upright plastic solution making the inside of the bag more accessible.

- **Dimensions (open):** 78 x 48 x 100 cm (L x W x H)
 - **Dimensions (closed):** 78 x 48 x 100 cm (L x W x H)
 - **Lifting height:** 107 cm
 - **Material (main):** Dual layer D1800*900 PVC flat-coated material
 - **Spare parts:** 6164, 6275, 6240
- As part of the bag comes a foldable upright plastic insert to keep the walls of the bag in shape. The plates for this function are placed inside the bag.
 - This model is equipped with a dual velcro closing method.
 - This bag has handles on the sides for easy handling.
 - The lifting straps are made from high quality polyester webbing.
 - The bottom is made of Polypropylene Log Plastic to keep the bag in shape and extend the lifespan of the bag. The bottom is replaceable and can easily be replaced if needed.

4786 Square tool bag w/ side gate

Color options:

4786 is a large square tool bag for content of lesser weight. The size, wall plates and zipper gate makes it a handy and easily accessible bag with great volume. The bag was developed to fit a transportable and foldable scaffold but can be used for many objects.

- **Dimensions (open):** 78 x 48 x 110 cm (L x W x H)
 - **Dimensions (closed):** 78 x 48 x 110 cm (L x W x H)
 - **Lifting height:** 130 cm
 - **Material (main):** D1800*900 PVC flat-coated material
 - **Spare parts:** 6164, 6275
- 4786 uses 4 lifting straps when hoisting. 2 handles.
 - A 20 mm bottom plate of hard PE is placed inside to strengthen the bag and ensure optimal weight distribution.
 - 10 mm plastic plates are placed inside three of the walls to keep the bag upright.
 - The last wall functions as a gate for easy access when the bag is grounded.
 - The gate is closed by zippers and the lid is closed by velcro.
 - Each of the plates can be removed from the bag. This is handy for saving up space when transporting or storing the bag.
 - The bottom is made of Polypropylene Log Plastic to keep the bag in shape and extend the lifespan of the bag. The bottom is replaceable and can easily be replaced.

4896 Large square filter tool bag

Color options:

A larger container bag for lesser weight. The great size and shape of the bag provides a large volume for large content or decreasing the amount of lifts needed.

- **Dimensions (open):** 120 x 70 x 70 cm (L x W x H)
 - **Dimensions (closed):** 120 x 70 x 70 cm (L x W x H)
 - **Lifting height:** 135 cm
 - **Material (main):** D1800*900 PVC flat-coated material
 - **Spare parts:** 6255
- 4896 uses 4 lifting straps when hoisting.
 - 2 handles are placed on the bag. One in each end.
 - A 20 mm bottom plate of hard PE is placed inside to strengthen the bag and ensure optimal weight distribution.
 - 10 mm plastic plates are placed inside all 4 walls to keep the bag upright and stable.
 - The lid is closed by velcro.
 - Each of the plates can be removed from the bag. This is handy for saving up space when transporting or storing the bag.
 - The bottom cover is made of PEHD plastic to prolong the bag's life time.

5937 Foldable lifting bag for WTC3-GE

Color options:

This model was designed and constructed specifically for a power module. 5937 is stackable and hoistable.

- **Dimensions (closed):** 137 x 66 x 35 cm (L x W x H)
- **Dimensions (inside):** 127 x 56 x 25 cm (L x W x H)
- **Lifting height:** 85 cm / 167 cm
- **Material (main):** D1800*900 PVC flat-coated material
- All walls can be folded down, making the bag flat and open for easier placement of the module.
- The walls are hard and sturdy. They can be detached by velcro if needed.
- The bags can be stacked on top of each other.
- The bag is closed and secured by velcro and stainless steel buckles.
- Two sets of lifting slings are placed on the outside of the bag making it possible to hoist the bag either horizontally or vertically.
- The strong lifting slings are made from high quality polyester webbing.
- Plastic handles are placed along the sides of the bag for easier handling.
- A hard plastic cover is placed underneath the bottom of the bag to offer protection on the ground.

5938 Foldable lifting bag for WTC3-ABB

Color options:

This model was designed and constructed specifically for a power module. 5938 is stackable and hoistable.

- **Dimensions (closed):** 100 x 70 x 32 cm (L x W x H)
- **Dimensions (inside):** 90 x 60 x 22 cm (L x W x H)
- **Lifting height:** 72 cm / 130 cm
- **Material (main):** D1800*900 PVC flat-coated material
- All walls can be folded down, making the bag flat and open for easier placement of the module.
- The walls are hard and sturdy. They can be detached by velcro if needed.
- The bags can be stacked on top of each other.
- The bag is closed and secured by velcro and stainless steel buckles.
- Two sets of lifting slings are placed on the outside of the bag making it possible to hoist the bag either horizontally or vertically.
- The strong lifting slings are made from high quality polyester webbing.
- Plastic handles are placed along the sides of the bag for easier handling.
- A hard plastic cover is placed underneath the bottom of the bag to offer protection on the ground.

Find 4272 on our website

4272 Solid casted lifting bag - Large

Color options:

The second of our solid casted bucket bags. This bag is large, durable and is a perfect solution for very heavy content with pointy edges. The bag can be difficult to handle and transport while on the ground and EMG therefore offers the solution of adding handles and/or wheels.

- **Dimensions (open):** 70 x 40 x 93 cm (L x W x H)
- **Dimensions (closed):** 70 x 40 x 93 cm (L x W x H)
- **Lifting height:** 120 cm
- **Material (main):** D1800*900 PVC flat-coated material
- **Spare parts (optional):** 4272-handle, 4272-wheel, 6272

- This special bag is patented by EMG A/S.
- The hard bottom is made of hard plastic to keep the bag in shape and prolong the lifespan of the bag.
- It's very strong and is great for tools and spare parts with sharp edges.
- The bottom lets in light, for easier operation inside the bag.
- A small polyester strap is placed in the corner of the velcro opening for easier access even when wearing heavy gloves.
- It has a double velcro closing mechanism.
- A transparent velcro pocket for documentation is placed on the front of the bag.

4272-wheel

- For easier handling, this model can be bought with a constructed trolley function.
- The solution consist of a foldable trolley handle of hard plastic, placed in one end, and a set of large sturdy rubber wheels placed in the other.

4272-handle

- It is also possible to get a couple of sturdy handles on 4272.
- The handles are deep and wide and can fit two hands wearing heavy gloves.

4272 with option: 4272-wheel

4272 with option: 4272-handle

7029 Square lifting bag for half pallet

Color options:

The second of our solid casted bucket bags. This bag is large, durable and is a perfect solution for very heavy content with pointy edges. The bag can be difficult to handle and transport while on the ground and EMG therefore offers the solution of adding handles and/or wheels.

- **Dimensions (open):** 90 x 70 x 70 cm (L x W x H)
- **Dimensions (closed):** 90 x 70 x 70 cm (L x W x H)
- **Lifting height:** 150 cm
- **Material (main):** 0.75 mm tarpaulin
- Has an inflatable lid so that rain water can drain off easily.
- The lid is closed and secured by velcro.
- 2 tube handles are placed on each side of the bag to ease handling.

- A transparent plastic pocket for A4-documentation is placed on top of the lid and on the front of the bag
- Has two sets of 50 mm polyamide lifting slings. Each set consist of two lifting eyes.
- The short set of lifting slings are made for helicopter hoist with an Elebia hook and can therefore only be used with carabiners and a magnetic ring connected between the two lifting eyes.
- 2 safety ribbons are placed tight all around the bag to strengthen and enforce.
- 10 mm plastic plates are placed inside all 4 walls to keep the bag upright and stable.
- Each of the plates can be removed from the bag. This is handy for saving up space when transporting or storing the bag. All plates can fit inside the bottom of the bag.
- A 20 mm bottom plate of hard foamed PVC is placed inside to strengthen the bag and ensure optimal weight distribution.
- The hard bottom is made out of Polypropylene Log Plastic to keep the bag in shape and prolong the lifetime of the bag.
- The bottom is replaceable and can easily be changed if needed.

64140 Round lifting bag - Large

Color options:

A large cylinder bag for content ranging all the way up to 500 kgs. The bag is the little brother of 2073 in shape and function, however it comes with a soft bottom cover.

- **Dimensions (open):** 64 x 140 cm (Ø x H)
- **Dimensions (closed):** 64 x 115 cm (Ø x H)
- **Lifting height:** 135 cm
- **Material (main):** D1800*900 PVC flat-coated material
- **Spare parts:** 32001, 6177
- The strong lifting slings are made from high quality polyiester webbing.
- The bottom cover is made of DOT PVC to prolong the bag's service time.
- The handles are mounted on the side to ease handling.
- A round bottom plate is placed inside the bag to keep the bag in shape and to offer solid weight distribution. The plate is 15 mm plywood.
- A 220 Liter plastic barrel can be bought as an ideal insert.

2073 Round lifting bag - Jumbo

Color options:

2073 is one of the heavy weights of EMG. Originating from model 80140 this bag has been upgraded and strengthened in quality through the years and now comes with hard bottom cover, upright plastic insert and offers the ability to hoist content weighing up to 1 ton.

- **Dimensions (open):** 80 x 145 cm (Ø x H)
- **Dimensions (closed):** 80 x 125 cm (Ø x H)
- **Lifting height:** 140 cm
- **Material (main):** D1800*900 PVC flat-coated material
- **Spare parts:** 6171, 6179, 6158
- The strong lifting slings are made from high quality polyiester webbing.
- A strong upright plastic is placed inside the bag making the bag stable and easy to enter as well as protect against sharp tools and objects.
- The bottom is made of Polypropylene Log Plastic to keep the bag in shape and extend the lifespan of the bag. The bottom is replaceable and can easily be replaced if needed.
- The top of the bag has a double velcro closing mechanism.
- It has four handles on the sides to ease handling.

5222 Cylinder-shaped tool station - Lifting bag

| | | | | |
|---|---|---|---|---|
|  |  |  |  | Color options: |
| 500 L | 200 KG | 15 KG | 1 UNIT |  |

5222 is a functional lifting bag designed as a tool station for rope access and working in heights. The bag functions as an easily accessible platform for all the tools and equipment needed for the technicians when working high above the ground.

- **Dimensions (open):** 80 x 100 cm (Ø x H)
 - **Dimensions (closed):** 80 x 100 cm (Ø x H)
 - **Lifting height:** 130 cm
 - **Material (main):** D1800*900 PVC flat-coated material
 - **Spare parts:** 6171, 6179
- Upright plastic inside the bag making the bag stable, easy to enter and protect against sharp tools and objects. The plastic functions as a wall around the bag.
 - This model has four pockets placed on the outside of the bag. The pockets on the outside have securing eyelets for attaching and securing tools by lanyard or carabiner.
 - Four large eyes are placed inside for securing tools/equipment by lanyard or carabiner.

- Asymmetric D-shape
- Uses a classic straight gate lock.
- Move the gate inwards to open.

AHL-2440/2T Small carabiner

Color options:

Small but steady carabiner often used for securing tools and other minor content.

- **Dimensions (general):** 4,5 x 8 cm (W x H)
- **Material (main):** Aluminum
- Asymmetric D-shape
- Double-action gate with auto-locking.
- Twist the sleeve and move the gate inwards to open.
- Comes with a cross-pin in the bottom.

511 Stainless steel carabiner

Color options:

Strong and steady carabiner with a spring-loaded gate to fasten and secure people and objects.

- **Dimensions (general):** 8 x 11,5 cm (W x H)
- **Material (main):** Stainless steel
- The brand of the carabiner is KONG.
- Asymmetric D-shape
- Triple-action gate with auto-locking.
- Move the sleeve upward and twist. Move the gate inwards to open.
- To be used for rope access and NOT hoisting.

EMG-CLA-801 800 KGS WLL Carabiner

Color options:

Powerful and secure e-coated steel carabiner for heavy content.

- **Dimensions (general):** 6,5 x 11 x 1 cm (W x H x Ø)
- **Material (main):** E-coated steel
- This carabiner is CE-approved.
- This carabiner is NOT for PPE use
- D-shaped carabiner with double-action gate with auto-locking.
- Twist the sleeve and move the gate inwards to open.
- It is possible to insert a captive bar in the bottom of the carabiner.
- Regarding the Design, Testing and verification and Identification and Markings, this model complies to the relevant parts of the following standards:
EN 13155 / AS 4991-2004 / ASME B30.26

CF-7072/3T Aluminum carabiner with triple lock

Strong and high quality carabiner with a spring-loaded gate. Safe and great for secure people and objects.

- **Dimensions (general):** 6,5 x 11 cm (W x H)
- **Material (main):** Aluminum
- D-shaped carabiner
- This carabiner is CE-approved
- Produced according to EN 362
- kN ↔ 25 ↑ 7
- Comes with a cross pin (not attached from start)
- Triple-action gate with auto-locking.
- To open: Pull the sleeve upwards, twist the sleeve and move the gate inwards.

CF-7072/2T Alu carabiner - double lock

Strong and steady carabiner with a spring-loaded gate to fasten and secure people and objects.

- **Dimensions (general):** 6,5 x 11 cm (W x H)
- **Material (main):** Aluminum
- D-shaped carabiner
- This carabiner is CE-approved
- Produced according to EN 362
- kN ↔ 25 ↑ 7
- Double-action gate with auto-locking.
- Twist the sleeve and move the gate inwards to open.

6194 Tool lanyards (5 pieces)

A strong and highly visible tool lanyard for securing tools to your self or a rope access bag.

- **Dimensions (general):** 2 x 55 cm (W x H)
- **Material (main):** Strechcord / Nylon webbing
- Comes with an aluminum carabiner attached in one of the ends.
- Adjustable barrel lock for tool attachment.
- A total of 5 tool lanyards with adhering carabiner are delivered inside a transparent plastic case.

4455 Complete lanyard set

Color options:

Small and handy pencil case containing a complete tool securing set for working in heights.

- **Dimensions (Case):** 29 x 11 x 9 cm (L x W x H)
- **Material (Case):** 0,75 mm Tarpaulin
- **Material (Lanyard):** Strechcord / Nylon webbing
- **Material (Tool tether):** Double plain nylon
- **Material (Tape):** Silicone-rubber
- The one-room-case is closed by a zipper and the lid is transparent.
- A total of 5 tool lanyards with adhering carabiner are placed inside the case.
- A total of 10 tool tethers are placed inside the case.
- 1 role of self-amalgamating tape is placed in the bag. Self-amalgamating tape is a silicone-rubber tape. When stretched and wrapped around an object, it unites itself into a strong and waterproof layer.
- If a tool doesn't have a retrofit attachment point, a tool tether can be attached using the self-amalgamating tape. A tool lanyard can then be attached to the tool tether.
- The case is mainly made of tarpaulin material but has a transparent plastic lid.

3815 Bottle bag

Color options:

A small bottle bag made to fit a classic 0.5 L bottle. This clever bag is perfectly suited for working in heights or similar desolated working locations.

- **Dimensions (general):** 7 x 4 x 19 cm (L x W x H)
- **Material (main):** D1800*900 PVC
- **NOTE: The orange version is padded with thermo material on the inside.**
- Velcro fasteners are placed on the back to keep the bag in place on your belt.
- The opening of the bag closes by velcro.

4033 Radio bag

Color options:

A small bag made for a cell phone, walkie or hand held radio. This clever bag is perfectly suited for working in heights or similar desolated working locations.

- **Dimensions (general):** 7 x 4 x 15 cm (L x W x H)
- **Material (main):** D1800*900 PVC
- Velcro fasteners are placed on the back to keep the bag in place on your belt.
- The opening of the bag closes by velcro.
- The top of the bag is narrow, making room for potential antennas sticking out.

3035 Cell phone bag

Color options:

A small bag made to store a cell phone, walkie or hand held radio. This clever bag is perfectly suited for working in heights or similar desolated working locations.

- **Dimensions (general):** 8 x 5 x 16 cm (L x W x H)
- **Material (main):** D1800*900 PVC
- Velcro fasteners are placed on the back to keep the bag in place on your belt.
- The opening of the bag closes by velcro.

3034 Harness protector

A small but functional protector. Used to protect harness and belts.

- **Dimensions (general):** 7 x 4 x 15 cm (L x W x H)
- **Material (main):** D1800*900 PVC
- The protector is easily closed by velcro.

6300 Sling protector for 4626

A small but functional protector. Used to protect the lifting slings on model 4626.

- **Dimensions (general):** 65 x 6 x 1 cm (L x W x H)
- **Material (main):** D1800*900 PVC
- The protector is easily closed by velcro.

3327 Rope protector 40cm

Rope protector to prevent ropes from being damaged by sharp edges and rough surfaces. This version is 40 cm long.

- **Dimensions (general):** 40 x 6 x 1 cm (L x W x H)
- **Material (main):** 0,5 mm Tarpaulin
- The protector has space for two ropes.
- The protector is easily closed by velcro.

3326 Rope protector 80cm

Rope protector to prevent ropes from being damaged by sharp edges and rough surfaces. This version is 80 cm long.

- **Dimensions (general):** 80 x 6 x 1 cm (L x W x H)
- **Material (main):** D1800*900 PVC
- The protector has space for two ropes.
- The protector is easily closed by velcro.

3375 Rope protector 100cm

Rope protector to prevent ropes from being damaged by sharp edges and rough surfaces. This version is 100 cm long.

- **Dimensions (general):** 100 x 6 x 1 cm (L x W x H)
- **Material (main):** D1800*900 PVC
- The protector has space for two ropes.
- The protector is easily closed by velcro.

5613 Sling protector 200cm

Sling protector designed to prevent slings from being damaged by sharp edges and rough surfaces. This version is 200 cm long.

- **Dimensions (general):** 200 x 8 x 2 cm (L x W x H)
- **Material (main):** 0,5 mm Tarpaulin
- The protector is easily closed by velcro.

Lifting bags suited for rope access and working in heights can be found on the following pages:

4389 Backpack with lifting option

This bag can be found on **page 11**

4626 Round lifting bag for rope access

This bag can be found on **page 12**

2787 Round lifting bag w/ backpack function

This bag can be found on **page 15**

SPARE PARTS / ACCESSORIES

Accessories, inserts and spare parts for our lifting and equipment bags.

Pages 53-61

5511 Inflatable raincover for the 4467

Color options:

Large raincover to be used when 4467 is placed on a ship or stored outside for longer periods of time.

- **Dimensions (general):** 130x90x110 cm (LxWxH)
- **Material (main):** 0.75 mm tarpaulin
- **Fits model(s):** 4467
- This raincover has an inflatable top so that rain water can drain off.
- The lifting bag can now be hoisted with the raincover on by guiding the lifting straps through the sockets.
- The cover fits tightly around the sides of the bag and stays in place by guiding elastic straps underneath the bottom corners of the bag

4467-100 Plastic buckle

Color options:

- Changeable 50 mm buckle in sturdy plastic.
- **Material:** Plastic / stainless steel
- **Fits model(s):** 4467, 5618
- If any of the buckles on your 4467 breaks, this buckle can replace it.
- It is attached by a pin and screw which means it is easy to mount without having to damage or modify the ribbons on the bag.

4467-300 Master link for 4467

Color options:

- Complete high quality master link solution suited for hoisting lifting bag 4467.
- **Material:** Grade 10 steel
- **Fits model(s):** 4467
- Consists of 1 master link with 2 sublinks, 4 coupling links and 4 sling hooks.
- The master link with sublinks has a WLL of 3.5 tonnes
- Each of the coupling links have a WLL of 1.5 tonnes
- Each of the sling hooks have a WLL of 1.5 tonnes
- Fulfills requirements in:
EN 1677:2008 / ASTM A952/A952M / AS 3776:2015

Find 4467-200 on the web

4467-200 Lifting yoke for 4467

Color options:

A lifting yoke for reducing the lifting height for model 4467.

- **Dimensions (open):** 90 x 66,5 x 25 cm (L x W x H)
- **Lifting height of 4467:** ~115 cm
- **Material (main):** Aluminium
- **NOTE:** This product is designed and produced to fit on model 4467 only! Do NOT use this lifting yoke for other purposes. Always follow the instructions for correct use.

- This product is CE certified.
- The yoke is hoisted in an stainless steel shackle on the top. The shackle is not removable.
- All four lifting slings are guided through the yoke and attached in the top.
- The sling lengths can safely be adjusted 20 cm.
- The lifting height of 4467 can now be between approximately 115-135 cm
- The yoke has large holes on the side designed for fork lifts for easy handling in the warehouse or on site.

6252-001 Weight indicator, Red

Color options:

A durable triangle for signaling bags of heavy weight.

- **Dimensions (general):** 22,5 x 18,5 cm (W x H)
- **Material (main):** Double layer tarpaulin
- **Fits model(s):** All carabiners and bags
- Made to attach to bags of more than 20 KGS.
- Has an area for writing the actual weight with a marker.
- Plastic eye-let in the top for carabiner attachment.
- The motive is printet on both sides.

6252-002 Weight indicator, Green

Color options:

A durable triangle for signaling bags of low weight.

- **Dimensions (general):** 22,5 x 18,5 cm (W x H)
- **Material (main):** Double layer tarpaulin
- **Fits model(s):** All carabiners and bags
- Made to attach to bags of less than 20 KGS.
- Has an area for writing the actual weight with a marker.
- Plastic eye-let in the top for carabiner attachment.
- The motive is printet on both sides.

3114 Transparent A5 pocket

Color options:

Transparent A5 pocket to be attached to a bag

- **Dimensions (general):** 18 x 24,5 cm (W x H)
- **Material (main):** Tarpaulin
- **Fits model(s):** All carabiners and bags
- The pocket fits an A5 sized paper for documentation or similar.
- The pocket is closed by velcro.

6197 Velcro patch, Small

Color options:

Velcro patch to attach to the side of 4389.

- **Dimensions (general):** 10 x 15 cm (W x H)
- **Material (main):** D1800*900 PVC
- **Fits model(s):** 4389
- Plain fabric square made for easy logo print.
- Velcro is placed on the bag for easy attachment and removal of the bag.

6272 Velcro patch for 4272

Color options:

Velcro patch to attach to the front of 4272.

- **Dimensions (general):** 25 x 20 cm (W x H)
- **Material (main):** D1800*900 PVC
- **Fits model(s):** 4272
- Version 1: Fabric square made for logo print.
- Version 2: Transparent plastic pocket
- Velcro is placed on the bag for easy attachment and removal of the bag.

6245 Velcro patch, Large

Color options:

Velcro patch to attach to large tool bags.

- **Dimensions (general):** 43 x 33 cm (W x H)
- **Material (main):** D1800*900 PVC
- **Fits model(s):** 4467, 5616, 5618, 5221

- Plain fabric square made for easy logo print.
- Velcro is placed on the bag for easy attachment and removal of the bag.

4272-wheel Trolley for 4272

For easier handling, 4272 can be mounted with a constructed trolley function.

- **Material (main):** PEHD, POM, PJO
- **Fits model(s):** 4272

- The solution consist of a foldable trolley handle of hard plastic, placed in one end, and a set of large sturdy rubber wheels placed in the other.
- The relevant bolts and nuts are included, as well as instructions for mounting.

4272-handle Handles for 4272

It is possible to get a couple of sturdy handles on 4272 for easier handling.

- **Material (main):** PE
- **Fits model(s):** 4272

- The handles are deep and wide and can fit two hands wearing heavy gloves.
- Comes as a pair.
- The relevant bolts and nuts are included.

3965 Small assortment insert

Small assortment insert designed to fit inside smaller bags.

- **Dimensions (general):** 28 x 28 x 50 cm (L x W x H)
- **Material (main):** D1800*900
- **Fits model(s):** 3585
- This insert has a handle on the top for easier handling when removing and inserting it into the bag.
- The main compartment of the insert is separated into three smaller rooms and can also be divided into five rooms.
- 12 pockets of various shapes and sizes are placed around the outside of the bag.

2929 Blue bucket insert

Hard and sturdy plastic insert. Fits inside many EMG bags and are often used for storing or transporting liquids, sharp objects and dirty spare parts.

- **Dimensions (general):** 28 x 26 x 40 cm (L x W x H)
- **Material (main):** PE
- **Fits model(s):** 3579, 1225, 2787, 2604, 4498
- The bucket has 2 handles to ease handling.
- The flat-woven webbing handles are made from high quality polyamide.

**4626-100** Hard cover for 4626

Color options:

This round bottom is made of hard plastic to keep the bag in shape and extend the lifespan of the bag. The replaceable cover is attached to the bag by heavy velcro.

- **Dimensions (general):** 35 x 3,5 cm (Ø x H)
- **Material (main):** PEHD
- **Fits model(s):** 4626

**6094** Hard cover Ø35

Color options:

This round bottom is made of hard plastic to keep the bag in shape and extend the lifespan of the bag. The replaceable cover is attached to the bag by heavy velcro.

- **Dimensions (general):** 35 x 12 cm (Ø x H)
- **Material (main):** Polypropylene Log Plastic
- **Fits model(s):** 3579, 1225, 2787, 2604, 4498, 5867

**6083** Hard cover Ø48

Color options:

This round bottom is made of hard plastic to keep the bag in shape and extend the lifespan of the bag. The replaceable cover is attached to the bag by heavy velcro.

- **Dimensions (general):** 48 x 12 cm (Ø x H)
- **Material (main):** Polypropylene Log Plastic
- **Fits model(s):** 4897

**6171** Hard cover Ø80

Color options:

This round bottom is made of hard plastic to keep the bag in shape and extend the lifespan of the bag. The replaceable cover is attached to the bag by heavy velcro.

- **Dimensions (general):** 80 x 12 cm (Ø x H)
- **Material (main):** Polypropylene Log Plastic
- **Fits model(s):** 2073, 5222

**1920** Soft cover Ø35

Color options:

This round soft cover is used to protect the bottom of the bag and hereby extend the lifespan of the bag. The replaceable cover is attached to the bag by heavy velcro.

- **Dimensions (general):** 35 x 12 cm (Ø x H)
- **Material (main):** PEHD
- **Fits model(s):** 3579, 1225, 2787, 2604, 4498, 5867

**1919** Soft cover Ø48

Color options:

This round soft cover is used to protect the bottom of the bag and hereby extend the lifespan of the bag. The replaceable cover is attached to the bag by heavy velcro.

- **Dimensions (general):** 48 x 12 cm (Ø x H)
- **Material (main):** PEHD
- **Fits model(s):** 4897

**6170** Hard cover 35x35

Color options:

This squarebottom is made of hard plastic to keep the bag in shape and extend the lifespan of the bag. The replaceable cover is attached to the bag by heavy velcro.

- **Dimensions (general):** 35 x 35 x 8 cm (L x W x H)
- **Material (main):** Polypropylene Log Plastic
- **Fits model(s):** 4435

**6095** Hard cover 61x36

Color options:

This squarebottom is made of hard plastic to keep the bag in shape and extend the lifespan of the bag. The replaceable cover is attached to the bag by heavy velcro.

- **Dimensions (general):** 61 x 36 x 8 cm (L x W x H)
- **Material (main):** Polypropylene Log Plastic
- **Fits model(s):** 2619, 3459, 3610, 3982, 4453

6131 Hard cover 57x27

Color options:

This squarebottom is made of hard plastic to keep the bag in shape and extend the lifespan of the bag. The replaceable cover is attached to the bag by heavy velcro.

- **Dimensions (general):** 57 x 27 x 8 cm (L x W x H)
- **Material (main):** Polypropylene Log Plastic
- **Fits model(s):** 3225

6164 Hard cover 78x47

Color options:

This squarebottom is made of hard plastic to keep the bag in shape and extend the lifespan of the bag. The replaceable cover is attached to the bag by heavy velcro.

- **Dimensions (general):** 78 x 47 x 9 cm (L x W x H)
- **Material (main):** Polypropylene Log Plastic
- **Fits model(s):** 4321, 4487, 5327, 5622, 4786

6255 Hard cover 120x70

Color options:

This squarebottom is made of hard plastic to keep the bag in shape and extend the lifespan of the bag. The replaceable cover is attached to the bag by heavy velcro.

- **Dimensions (general):** 120 x 70 x 12 cm (L x W x H)
- **Material (main):** Polypropylene Log Plastic
- **Fits model(s):** 4896, 5616

6202 Hard cover 130x90

Color options:

This squarebottom is made of hard plastic to keep the bag in shape and extend the lifespan of the bag. The replaceable cover is attached to the bag by heavy velcro.

- **Dimensions (general):** 130 x 90 x 12 cm (L x W x H)
- **Material (main):** ABS Plastic
- **Fits model(s):** 4467, 5618

6117 Upright insert Ø35 - Short

Color options:

An upright plastic insert to fill out the walls of the bag to protect the inside from sharp edges and keep the bag upright and stabil.

- **Dimensions (general):** 35 x 31 cm (Ø x H)
- **Material (main):** 2mm PEHD
- **Fits model(s):** 3579, 1225, 2787, 2604, 4498

6234 Upright insert for 4626

Color options:

An upright plastic insert to fill out the walls of the bag to protect the inside from sharp edges and keep the bag upright and stabil.

- **Dimensions (general):** 35 x 40 cm (Ø x H)
- **Material (main):** 2mm PEHD
- **Fits model(s):** 4626

6165 Upright insert Ø35 - Tall

Color options:

An upright plastic insert to fill out the walls of the bag to protect the inside from sharp edges and keep the bag upright and stabil.

- **Dimensions (general):** 35 x 50 cm (Ø x H)
- **Material (main):** 2mm PEHD
- **Fits model(s):** 1225, 2787, 2604, 4498

6084 Upright insert Ø48

Color options:

An upright plastic insert to fill out the walls of the bag to protect the inside from sharp edges and keep the bag upright and stabil.

- **Dimensions (general):** 48 x 45 cm (Ø x H)
- **Material (main):** 2mm PEHD
- **Fits model(s):** 4897

16135-100 Insert for 16135

Color options:

An upright plastic insert to fill out the walls of the bag to protect the inside from sharp edges and keep the bag upright and stabil.

- **Dimensions (general):** 16 x 110 cm (Ø x H)
- **Material (main):** PE100 PN6 SDR26
- **Fits model(s):** 16135

6179 Upright insert Ø80

Color options:

An upright plastic insert to fill out the walls of the bag to protect the inside from sharp edges and keep the bag upright and stabil.

- **Dimensions (general):** 80 x 100 cm (Ø x H)
- **Material (main):** 5mm PEHD
- **Fits model(s):** 2073

6240 Box insert for square bags

Color options:

- Foldable insert box folded and assembled by velcro and can be folded out to be one flat piece of plastic for easier transportation and storage.

- **Dimensions (general):** 77 x 47 x 40 cm (L x W x H)
- **Material (main):** PEHD
- **Fits model(s):** 5327, 4487, 5622

6275 Hard bottom plate

Color options:

- Hard bottom plate to offer protection and optimal weight distribution

- **Dimensions (general):** 75 x 43 x 2 cm (L x W x H)
- **Material (main):** Foamed PVC
- **Fits model(s):** 4321, 4487, 5327, 5622, 4786

6277 Hard bottom plate

Color options:

- Hard bottom plate to offer protection and optimal weight distribution

- **Dimensions (general):** 124 x 84 x 2 cm (L x W x H)
- **Material (main):** Foamed PVC
- **Fits model(s):** 4467, 5618

6180 Triangle insert - low

Color options:

Triangular assortment inserts for Ø35 bags. These plastic inserts can be used for organizing tools and spareparts.

- **Dimensions (general):** 15,5 x 15 cm (R x H)
- **Material (main):** PEHD
- **Fits model(s):** 4626, 3579, 1225, 2787, 4498, 5867

- **NOTE:** The inserts are sold singular.

6166 Triangle insert - Tall

Color options:

Triangular assortment inserts for Ø35 bags. These plastic inserts can be used for organizing tools and spareparts.

- **Dimensions (general):** 15,5 x 25 cm (R x H)
- **Material (main):** PEHD
- **Fits model(s):** 4626, 3579, 1225, 2787, 4498, 5867

- **NOTE:** The inserts are sold singular.

6295 Insert separator

Color options:

- An insert for our big bags. Originally designed for separating and organizing content.

- **Material (main):** Foamed PVC
- **Fits model(s):** 4467, 5618

- The insert gives the bag six smaller compartments.
- The insert contains of three plates and can be stored flat in the bottom of the bag when separated.

30026 Plastic barrel - Ø32

UN-approved plastic barrel with detachable lid. Fits inside many EMG bags and are often used for storing or transporting chemicals, liquids or sharp objects.

- **Dimensions (general):** 31,6 x 42,5 cm (Ø x H)
- **Dimensions (opening):** 20,3 cm (Ø)
- **Material (main):** HDPE
- **Fits model(s):** 3579, 1225, 2787, 2604, 4498
- The buckets are water and air tight as well as shockproof.

30068 Plastic barrel - Ø41

UN-approved plastic barrel with detachable lid. Fits inside many EMG bags and are often used for storing or transporting chemicals, liquids or sharp objects.

- **Dimensions (general):** 41 x 63,4 cm (Ø x H)
- **Dimensions (opening):** 28,2 cm (Ø)
- **Material (main):** HDPE
- **Fits model(s):** 4897 or bigger
- The buckets are water and air tight as well as shockproof.

30601 Plastic barrel - Ø40

UN-approved plastic barrel with detachable lid. Fits inside many EMG bags and are often used for storing or transporting chemicals, liquids or sharp objects.

- **Dimensions (general):** 40 x 63 cm (Ø x H)
- **Dimensions (opening):** 32,5 cm (Ø)
- **Material (main):** HDPE
- **Fits model(s):** 4897 or bigger
- The closing buckle is made of galvanized steel and the handles are made of PE.
- This version has handles on the side.

32001 Plastic barrel - Ø59

UN-approved plastic barrel with detachable lid. Fits inside many EMG bags and are often used for storing or transporting chemicals, liquids or sharp objects.

- **Dimensions (general):** 59 x 98 cm (Ø x H)
- **Dimensions (opening):** 46,5 cm (Ø)
- **Material (main):** HDPE
- **Fits model(s):** 64140, 2073
- The closing buckle is made of galvanized steel and the handles are made of PE.

VK180 JUMBO® tool box

Large tool box to be hoisted inside model 2606 (harness tool bag).

- **Dimensions (outside):** 88 x 55 x 43,5 cm (L x W x H)
- **Dimensions (inside):** 81 x 51 x 33 cm (L x W x H)
- **Material (main):** Polyethylene
- **Fits model(s):** 2606

- The JUMBO® tool box is made of weather-resistant and impact-resistant polyethylene.
- The lid is specially designed to prevent dust and water splashes from entering the box.
- The box has solid stainless steel carrying handles.
- The locks are also in stainless steel and are designed to be locked with a padlock.
