ENGEL

## BRAND STORY

**ENGEL is an icon in the functional clothing industry. We create designs that make every workday safer, simpler and more comfortable.**

Our family-run business has grown through four generations. Since one of our founders, Carl. J. Engel, returned from America to Southern Denmark, inspired by blue denim and with a basket of new ideas, we have been working to create the best workwear on the market.

We provide functional, comfortable, durable, contemporary garments, where every detail has a purpose. To us, the process is simple. We start by understanding the detailed needs of the wearer. Then we develop new designs to meet those needs. No more. **No less.**

The passion and curiosity to create new and better workwear is deeply rooted in our brand, and led fourth-generation owners John and Lars Engel to break with convention and challenge the use of traditional materials and methods. Today, we continue to refine our craft and take pride in developing and exploring new materials, designs and processes that push the boundaries of innovation.

Through our constant focus on functionality and the needs of the wearer, ENGEL has grown into a globally recognized brand. We remain dedicated to our core mission – to make functional work clothes that are comfortable to wear and robust enough to handle the toughest treatment. Workwear that puts function first.

**ENGEL / Function first**

## VENTURE

# A PERFECT MATCH FOR THE INDUSTRY

The Venture collection has been specially designed for large industries. The fabric, a polyester/cotton blend, has been chosen for its durability and is commonly used in industry due to its hard-wearing properties. The blend of this fabric also renders it suitable for wear in both warmer and cooler work environments; especially important when working with machinery that emits a lot of heat.
